

Peep Hole

Bullion

People what did you expect to get from them
People they don't think about anything
People they don't know a lot
They don't know a lot
We're just people, people, people

Take a look through the key hole
What did you expect
Of people
How could you let them get inside your head
They're just people
They don't know a lot, they don't know a lot
They're just people
Peep
