

All I Do

Bully

Polly's got a psychic says she'll talk to you
You can pay 100 bucks for more bad news
I've been ready to leave but it's hard to go
If it ain't the right choice I don't wanna know and
I can see the city from a thousand miles it
Doesn't ring the same when I go to dial because
Everything's been colored a new shade of you
I wanna feel the way I used to
I wanna feel the way I used to

'Cause I, I'm not leaving here
Burned-out wasting tears I am done
If I, I was not myself
Lost in something else
I am done, I am done

Drove up to Chicago just to talk to you
Said you're in a bad way got a lot to do like
Following the orders that they give to you then
Everything froze for a minute or two and
I've been trying to write but I can't break through yeah
Everything for nothin' was all I knew now
Everything for nothin' is all I do yeah
Everything for nothin' anything for you
Everything for nothin' anything for you

'Cause I, I'm not leaving here
Burned-out wasting tears I am done
If I, I was not myself
Lost in something else
I am done, I am done

Being back here reminds me of when
I was happy with myself and then
Heavy memories sink in
I'll never get fucked up again

I, I'm not leaving here
Burned-out wasting tears I am done
If I, I was not myself
Lost in something else
I am done, I am done
