

Focused

Bully

It's been a while now
Since I've spoken to you last
But you're still my best friend
We can change, can't change the past

And I still remember
When you had bad pot laced with blow
Thought you were losing your feet and
Couldn't move, had your dad take you home

I am trying to stay focused
I am trying to stay focused
I am trying to stay focused
I am trying to stay

Your new city
Treats you well, never did you harm
He was a deadbeat
I'm glad you got out, I'm glad that you moved on

And I still remember
What you went through when we were sixteen
You explained it to me then but
A few years later I felt what you mean

I am trying to stay focused
I am trying to stay focused
I am trying to stay focused
I am trying to stay

I am trying to stay focused
I am trying to stay focused
I am trying to stay focused
I am, I'm trying, I'm trying to stay

Did he call you a bad friend?
Did he do it again?
Did call you a bad friend?
Did he do it again?
Did he call you a bad friend?
Did he do it again?
I'm gonna kill him

I am trying to stay focused
I am trying to stay focused
I am trying to stay focused
I am, I'm trying, I'm trying
To stay, to stay, to stay, to stay
