

# I Remember

**Bully**

I remember  
I remember my old habits  
I remember getting too fucked up  
And I remember throwing up in your car  
I remember  
I remember showing up at your house  
And I remember hurting you so bad  
And I remember the way your sheets smelt

I know what makes you cry  
I know when you mean it  
Who knows you better than  
I do!

I remember  
I remember that box of letters  
I remember that naked photo  
And I remember things getting better  
I remember  
I remember when I met your dad  
I remember all about your mom  
I remember what you do on Christmas

I know what makes you cry  
I know when you mean it  
Who knows you better than  
I know everything that freaks you out  
That makes you mad  
That makes you melt
