

Not The Way

Bully

If you're still up, but stop by
'Cause I can't get to sleep tonight
I can't help but worry about you
But not the way that I used to

[?], it eats me alive
Kills me, I love it, [?] I despise
A moment of weakness right under my mind
It's nothin', it's nothin', it's nothin'

And they call me (callin', callin', callin', callin' me)
'Cause they want to brag, they want me to bleed (callin', callin', callin', callin' me)
I won't come clean (callin', callin', callin', callin' me)
Don't worry, I got you

Everyone gets quiet enough
When I'm around and you come up
But I know that they're talkin' about you
And not the way that they used to

[?], it eats me alive
It kills me, I love it, [?] I despise
A moment of weakness right under my mind
It's nothin', it's nothin', it's nothin'

And they call me (callin', callin', callin', callin' me)
'Cause they want to brag, they want me to bleed (callin', callin', callin', callin' me)
I won't come clean (callin', callin', callin', callin' me)
Don't worry, I got you

I'm never gonna talk again
I'm never gonna talk again

And they call me (callin', callin', callin', callin' me)
'Cause they want to brag, they want me to bleed (callin', callin', callin', callin' me)
I'm not comin' clean (callin', callin', callin', callin' me)
Don't worry, I got you

If you're still up, but stop by
So I can get some sleep tonight
