

## Sharktooth

**Bully**

I'll never sleep with you again  
I don't want you broke over me  
If you playing with the dealer's rent  
You keep living incompletely  
And even though it's only you  
That brings me way down low  
I still get terribly sick  
When I see the place you're gonna go

I'm not pulling out your shark tooth  
You got stuck up in the first place  
And now you're swimming, ain't you baby?  
You keep blaming me for settling  
I'm feeling good  
It's time to stop pointing fingers  
It's time to buck up Billy, be a man

You said, you used it all up in your youth  
Don't you blame it on the dinosaurs  
It wasn't them who knocked the sense out of you  
Blame it on freedom, space, and open doors  
And now your mothers gonna be so sad  
She only wants you to do good  
And your fathers gonna kick your ass  
You deserve it, I think he should

I'm not pulling out your shark tooth  
You got stuck up in the first place  
And now your swimming, ain't you baby  
You keep blaming me for settling  
I'm feeling good  
It's time to stop pointing fingers  
It's time to buck up Billy be a man

Billy, you were brought up to  
Lie to me then bring me home  
It's time for you to punch the clock  
It's time for you to be grown
