

## Too Tough

**Bully**

Call me but you can't come clean  
I had to hear it from my family, hear it from the answering machine  
Could you lie anymore?  
I am only half sorry for bringing you down before

It's like you never even wanted it  
You're just too tough to talk it out and talk about it  
Only God knows just how far you will go  
To be someplace we'll never know  
You're tryna wear me down  
Wear me down

Callin' me so you can come clean  
After it's too late, why don't you just let me be?  
Stop tryin' to blame  
Everyone else, so get up now, soak in the stream  
I remember you so much  
I'm glad we straightened it out  
And now you're right on track  
That's the shit that brings me down

It's like you never even wanted it  
You're just too tough to talk it out and talk about it  
Only God knows just how far you will go  
To be someplace we'll never know  
You're tryna wear me down  
Wear me down  
Wear me down

This is, it's been so unfair  
You do, do whatever you care  
I say to you're sensitivity  
It's wasted, wasted
