

# Booty Call

bülow

I wanna be your booty call  
I wanna be the last one in your bed  
I'll pop right into your head unannounced  
I wanna be the other girl  
Not the one that you call at your worst  
'Cause I won't stick around  
But I'm here now

So just let me lay you down  
Take me dancing, take me out  
Get me drunk and use my body  
Pull my T-shirt from the couch  
And hide it from your other girlfriends  
No, I don't care at all  
I just wanna be your booty call

I wanna fuck up my career  
Go somewhere no one can find me  
And no, not even me  
I wanna fall out of the sky  
Into your arms and out of them again  
Want you to wonder where I've been  
Just count to ten  
Comb the tangles from my hair  
As you tell me "Life ain't fair"  
Maybe I should leave my body  
Maybe I should sell my soul  
But I don't care, I don't dare  
'Cause I'm not dead yet  
And you ain't dead  
Don't fall asleep  
Just hit me when you get this

I wanna be your booty call  
I wanna be the last one in your bed  
I'll pop right into your head unannounced  
I wanna be the other girl  
Not the one that you call at your worst  
'Cause I won't stick around  
But I'm here now

So just let me lay you down  
Take me dancing, take me out  
Get me drunk and use my body  
Pull my T-shirt from the couch  
And hide it from your other girlfriends  
No, I don't care at all  
I just wanna be your booty call

I just wanna be your booty call
