

## Own Me

bülow

Car chase, got the Devil on me  
Can't sleep, got nothing but a twenty on me, on me  
Nothing ever comes for free  
You can pay what you want  
But you're never gonna own me  
Star gaze while I'm rolling up trees  
Count sheep, got nothing but a twenty on me, on me  
Nothing ever comes for free  
You can pay what you want  
But you're never gonna own me  
(Never gonna, never gonna)  
You can pay what you want  
But you're never gonna outrun me  
(Never gonna, never gonna)  
You can pay what you want  
But you're never gonna own me

Let it slide for the very last time  
See the fear when I look in your eyes  
Hear my voice while you sleeping at night  
You keep flexing, I keep working  
Checkmate, get you outta that crown  
Change guard, everybody bow down  
Last words pouring out of your mouth  
You keep talking, I keep working

Car chase, got the Devil on me  
Can't sleep, got nothing but a twenty on me, on me  
Nothing ever comes for free  
You can pay what you want  
But you're never gonna own me  
Star gaze while I'm rolling up trees  
Count sheep, got nothing but a twenty on me, on me  
Nothing ever comes for free  
You can pay what you want  
But you're never gonna own me  
(Never gonna, never gonna)  
You can pay what you want  
But you're never gonna outrun me  
(Never gonna, never gonna)  
You can pay what you want  
But you're never gonna own me

Try to push me  
Imma let you push right through me  
Turn into a ghost, can't touch me  
Imma make you sweat (Imma make you sweat)  
You say you got a plan for me  
And you always been a stan of me  
Say you better tread carefully, yea  
Wish that you could just abandon me  
You can pay what you want  
But you're never gonna own me

Car chase, got the Devil on me  
Can't sleep, got nothing but a twenty on me, on me  
Nothing ever comes for free

You can pay what you want  
But you're never gonna own me  
Star gaze while I'm rolling up trees  
Count sheep, got nothing but a twenty on me, on me  
Nothing ever comes for free  
You can pay what you want  
But you're never gonna own me  
(Never gonna, never gonna)  
You can pay what you want  
But you're never gonna outrun me  
(Never gonna, never gonna)  
You can pay what you want  
But you're never gonna own me

I know that you probably wish  
That I would just bow down  
Would that make you happy?  
But you should know that  
I would rather die  
Than to watch you have that finale  
Cause like, you love having the power  
You think I'm such a flower  
My petals are poison  
Let you smoke on 'em  
Fuck that, let you choke on 'em  
Make you learn from it  
Hope you grow from this  
More than a little bit  
But it ain't the last time

Car chase, got the Devil on me  
Can't sleep, got nothing but a twenty on me, on me  
Nothing ever comes for free  
You can pay what you want  
But you're never gonna own me  
Star gaze while I'm rolling up trees  
Count sheep, got nothing but a twenty on me, on me  
Nothing ever comes for free  
You can pay what you want  
But you're never gonna own me  
(Never gonna, never gonna)  
You can pay what you want  
But you're never gonna outrun me  
(Never gonna, never gonna)  
You can pay what you want  
But you're never gonna own me
