

Revolver

bülow

I don't got the time for you
Cus you never had the time for me
Now I see you coming back, what you want,
Why you mad
Because I'm not who I used to be

Something like a movie screen
And you can't take your eyes of me
Was it all in your head, all the time that we spent,
All you wanted was the fantasy

She could change your life, make you wanna get closer
But she could take your life, make you wish it was over

Everybody watch her
She's a revolver
She'll break through your armour
Don't try to stop her

Never seen one like her
I wanna be like her
She's a revolver
Revolver, revolver

Everybody watch her
She's a revolver
She'll break through your armour
Don't try to stop her

Never seen one like her
I wanna be like her
She's a revolver
Revolver, revolver

(Verse 2)
Bang bang
Kiss kiss
Cant read the secrets on her lips

She walk, you follow a
If she jumped, you jump off a cliff

She could change your life, make you wanna get closer
But she could take your life, make you wish it was over

Everybody watch her
She's a revolver
She'll break through your armour
Don't try to stop her

Never seen one like her
I wanna be like her
She's a revolver
Revolver, revolver

Everybody watch her
She's a revolver

She'll break through your armour
Don't try to stop her

Never seen one like her
I wanna be like her
She's a revolver
Revolver, revolver

Everybody watch her
She's a revolver
She'll break through your armour
Don't try to stop her

Never seen one like her
I wanna be like her
She's a revolver
Revolver, revolver

Everybody watch her
She's a revolver
She'll break through your armour
Don't try to stop her

Never seen one like her
I wanna be like her
She's a revolver
Revolver, revolver

She could change your life, make you wanna get closer
But she could take your life, make you wish it was over
