

## Two Punks In Love

bülow

1, 2, 3, 4

Two punks in love  
You had my back from day one  
We were so young  
Yeah, that stuff hit like a truck  
A loaded gun  
That cupid knew what was up  
And now I'm locked  
Inseparable we've become

Even though the years go by  
Seasons changed and flowers died  
We're still rocking side by side  
I'm still yours and you're still mine

You broke my heart a million times  
Can't count the ways I've made you cry  
Oh, we're such a mess  
But I get depressed at the thought of losing you  
We were kids, it's been a while  
But you still work to make me smile  
A stolen kiss, now I can't wait to waste my life away with you  
You, waste my life away with you, you

Two punks in love  
Growing pains from growing up  
Your dad was drunk  
Your escape was my house  
Yours fell apart  
They said their love was not enough  
But from the start  
We promise, we won't give up

Even though the years go by  
Seasons changed and flowers died  
We're still rocking side by side  
I'm still yours and you're still mine

You broke my heart a million times  
Can't count the ways I've made you cry  
Oh, we're such a mess  
But I get depressed at the thought of losing you  
We were kids, it's been a while  
But you still work to make me smile  
A stolen kiss, now I can't wait to waste my life away with you  
You (with you, with you)  
Waste my life away with you, you (with you, with you)

Two punks in love  
With a not so pretty love  
Not giving up, not giving up, not giving up  
Two punks in love (yeah, yeah)  
With a not so pretty love  
Not giving up, not giving up, not giving up

You broke my heart a million times

Can't count the ways I've made you cry  
Oh, we're such a mess  
But I get depressed at the thought of losing you  
We were kids, it's been a while  
But you still work to make me smile  
A stolen kiss, now I can't wait to waste my life away with you  
You (with you, with you)  
Waste my life away with you, you (with you, with you)  
You, waste my life away with you, you
