

# Upside Down

bülow

(Mm...)

What the fuck you fall in love for? (Love for)  
Couldn't I have been enough for you?  
What the fuck you fall in love for? (Love for)  
Couldn't I have been enough for you?

I never said I'm sorry (I'm sorry)  
Don't know why you call me (You call me)  
It's past 10:30  
Drive fast like 'Rari  
Bed I froze in, the side you won't sleep in  
It's two more doses  
No, we can't be friends

Broken hearts, they turn my world upside down  
I don't know anymore, what's the right way around?  
Mend the pieces, I will lend you my key  
Babe, I'm trusting your heart, if you swear you want me

(Yeah, yeah, I miss you, babe  
I've been thinkin' about you, about us, really)

Got a broken phone so I haven't heard from you  
You're across the ocean, sail seven years for you  
It's real life, man, that I'm about to sink in  
Tell me who is your misses, can she leave on the weekend?

Broken hearts, they turn my world upside down  
I don't know anymore, what's the right way around?  
Mend the pieces, I will lend you my key  
Babe, I'm trusting your heart, if you swear you won't leave me  
Broken hearts, they turn my world upside down  
I don't know anymore, what's the right way around? (Oh-oh)  
Mend the pieces, I will lend you my key  
Babe, I'm trusting your heart, if you swear you won't leave

What the fuck you fall in love for? (Oh, what the fuck)  
Couldn't I have been enough for you?  
What the fuck you fall in love for?  
Couldn't I have been enough for you?  
Couldn't I have been enough for you?  
Couldn't I have been enough for you?  
Couldn't I have been enough for you?  
Couldn't I have been enough for you?

Broken hearts, they turn my world upside down  
I don't know anymore, what's the right way around?  
Mend the pieces, I will lend you my key  
Babe, I'm trusting your heart, if you swear you want me  
Broken hearts, they turn my world upside down  
I don't know anymore, what's the right way around?  
Mend the pieces, I will lend you my key  
Babe, I'm trusting your heart, if you swear you want me
