

You & Jennifer (the other side)

bülow

Listen, no we don't need to be enemies
Ain't got tunnel vision
Vision of us in the future
With a white picket fence
And internal decisions
I almost did it
Glad that I didn't

Space cakes and a Big Mac
I'm a space case but I'm sure that
All my friends fake cause they told me that
she wasn't real, it was all in my head I imagined that
False spark
Saw them hand in hand standing outside of a Walmart
Now I'm sitting here wondering when did this all start

Fuck you and Jennifer
I know that you're out with her
Go pretend that you're just friends
I'll pretend that I'm not hurt
I know all the shit I heard
You can take these bitter words
Fuck you and Jennifer
Go fucking make love to her

Fuck you and Jennifer
I know that you're out with her
Go pretend that you're just friends
I'll pretend that I'm not hurt
I know all the shit I heard
You can take these bitter words
Fuck you and Jennifer
Go fucking make love to her

I'm making love to Jennifer cause I can't fuck with you
And we was freaking on the weekend you ain't have a clue
I was flexing on a bitch had to drop my roof
Your last boyfriend he had no coupe
Now my wrists so sick I ain't had no soup
I need a bitch to fall in love but it can't be you
My bitch she know I got that bag it ain't nothing to prove
I'm calling Jennifer I'll fuck her when there's nothing to do
And all my bitches they like bitches I might bring them too
I can't be stuck with you
I might just block you from my phone cause I ain't in the mood
I'm trying to spend some time with Jennifer not being rude

Fuck you and Jennifer
I know that you're out with her
Go pretend that you're just friends
I'll pretend that I'm not hurt
I know all the shit I heard
You can take these bitter words
Fuck you and Jennifer
Go fucking make love to her

Fuck you and Jennifer

I know that you're out with her
Go pretend that you're just friends
Thrusting in and out of her
I can see her close her eyes
While you kiss her soft and nice
Fuck you and Jennifer
Go fucking make love to her

Jennifer, Jennifer, Jennifer
Jennifer, Jennifer
