

Mariconna

Bumblefoot

Mariconna - can't take my eyes off of you
Mariconna - I've changed from the first time I saw you
I never knew what emptiness was
Until I turned away and you were gone

Mariconna - I've got a girl to save
Puerca Tonta - she's got a world to blame
Where it's dark all the time
Let me in - I'll be your sunshine

Mariconna - can't take my eyes off of you
Mariconna - I spend my nights dreaming of you
Waiting to see you again
Waiting to breathe again
