

Sometimes I'm feeling like there-is something in the  
air  
kicks us up into a fight - why do we go there  
Is it biology or fucked up chemistry  
The whole world seems to be caught - in its own misery  
Or is it that I only - see reflections of me  
And that I think there's nothing beyond my line of  
trees  
I think it's time to let it go , yeah I know...  
'Cause it's too short, this thing called life hmm - I  
need you in mine

I'm spillin' over with some much love for the whole  
world to take that it blows my mind  
Yeah I'm overloaded - I'm overflowin' - it feels like  
my soul is pouring out my eyes  
Oh, oh, oh, oh, oh, oh, oh, oh, oooh, yeah  
Take and take as much as you can - it's all that's left  
of me

Ooooh, ooooh, yeah

I fly under the radar, just skimming the line  
Between never and forever, between earth and sky  
But when I think about it, it washes over me  
And pulls me to the dividing line - that's where I sink  
Down to the ocean floor, still sad from the last tour  
When there were devils amongst - still I go back for  
more  
Maybe it's time to just let it go , yeah I know...  
'Cause it's too short, this thing called life - and I  
need you in mine

I'm spillin' over with some much love for the whole  
world to take that it blows my mind  
Yeah I'm overloaded - I'm overflowin' - it feels like  
my soul is pouring out my eyes  
Oh, oh, oh, oh, oh, oh, oh, oh, oooh, yeah  
Take and take as much as you can - it's all that's left  
of me
