

## Pretty Ugly

Bumblefoot

You're such a pretty pretty pretty girl  
Stuck in a pretty pretty shitty world  
Girl you were meant for me  
You're so pretty ugly

You've got some pretty pretty stupid friends  
Don't you know they're gonna screw you in the end  
So run away with me  
We'll be pretty ugly

So let's drive until we reach the sun  
It won't take you back to anyone  
You coulda shoulda woulda made things fine  
But now you're pretty ugly and you're mine  
You're pretty ugly and you're mine mine mine

You really got a pretty fucked up life  
Someday you're gonna be my fucked up wife  
'Cause we match so perfectly  
I'm pretty, you're ugly

We got nothing but the rest of time  
If I could I'd spend it all holding you tight  
There's no way a girl could make me feel so fine  
And now you're pretty ugly and you're mine  
You're pretty ugly and you're mine mine mine

(Hey!)

You're such a pretty pretty pretty girl  
Stuck in a pretty pretty shitty world  
We're pretty ugly just like that great thing, yeah

Yeah yeah yeah! (3x)
