

## Shell

Bumblefoot

The cruel taste me like a cancer eats  
My bone's been cleaned - still my body breathes  
And everything goes  
Sit on cracked walls - why I fall

Up and out, pain was noise - someone broke Sorrow's toy  
Inside out pours the void from my wounds  
The shell was destroyed

We all fall down  
We all fall down  
Hit the ground - emptied out

Kings horses and men put me here again  
I'm back on the wall - should I stay or fall  
And go through it all  
I feel so well - empty shell

Up and out, pain was noise - someone broke Sorrow's toy  
Inside out pours the void from my wounds  
The shell was destroyed

We all fall down  
We all fall down  
Hit the ground - emptied out  
Life and heart painted the ground

Know why I fall - sitting on cracked walls  
We all fall down onto shaky ground  
I can't stand at all  
We all spin round - shaky ground

We all fall down  
We all fall down  
Hit the ground - emptied out  
Threw the red blanket down

We all fall down
