

## Shrunk

Bumblefoot

Headshrinker workin' my flava try to rearrange my psych  
try to voodoo my child  
Bloodletter fryin' my egg chewin' my leg leechin' off my  
pain suckin' my brain  
Big thinker masqueradin' mannequin manipulator dominator  
slave trader breakin' me takin' me

I don't need all your therapy  
I'm alright without your insight  
I was fine till you took my mind - that's when it shrunk

Chain me crack your whip on my bad trip taking me away  
reshapin' my clay  
You're diggin' through me like a squatbug siftin through  
mindmud looking for a shiftkit - finding it

Disablin' me you keep labelin' me you keep stickerin' me  
vandalizin' my skull  
Tag me bag me drag me on down and ya finger my head like  
a 10 pound ball  
You got a term for everything I think wormin' your way  
into my say clashin' my wave  
Crushin' my skeleton shadowin' my light blurrin' my sight  
splinterin' my crutches  
mmm...

A frown is a smile in an upside-down world
