# DANCING ON GLASS

BUMKEY

How long can it hold weight
No way to be sure
It's already too late
Hanging on the edge
Too soon to be falling
We're only running out of time at this rate

Every step it's breaking
Like we're on thin ice
Give into temptations
Now
And we'll pay the price
When it comes around
Cuz you're all I
All I
Want
When it comes around
Cuz you're all I want

I got you in my arms tonight
But I can see we're dancing on glass
We got this thing on overdrive
And I
Don't know
How long we can last
(We're dancing on)
(We're dancing on)
So wrong but I want it
So bad it's good
Girl you know that you got it
I'd pull away if I could
Just tell me why it feels so right
When I know
That we're dancing on glass
But that shit ain't on our mind
On our mind yeah

The answer is one one way
Straight out the door
It's already too late
Hanging on the edge
Too soon to be falling
We're running out of time

Every step it's breaking
Like we're on thin ice
Give into temptations
Now
And we'll pay the price
When it comes around
Cuz you're all I
All I
Want
When it comes around
Cuz you're all I want

I got you in my arms tonight

But I can see we're dancing on glass
We got this thing on overdrive
And I
Don't know
How long we can last
(We're dancing on)
(We're dancing on)
So wrong but I want it
So bad it's good
Girl you know that you got it
I'd pull alway if I could
Just tell me why it feels so right
When I know
That we're dancing on glass

And we'll break it
Till the sun comes up
Comes up
We might as well enjoy it
Cuz we're both
Going down
We'll break it
Till the sun comes up
Comes up
Just give in
When the
Night calls
When the night calls

I got you in my arms tonight
But I can see we're dancing on glass
We got this thing on overdrive
And I
Don't know
How long we can last
(We're dancing on)
(We're dancing on)
So wrong but I want it
So bad that it's good
Girl you know that you got it
I'd pull alway if I could
Just tell me why it feels so right
When I know
That we're dancing on glass
But that shit ain't on our mind
On our mind yeah
