

# FOREVER LOVE

BUMKEY

Remember the waves when we were sailing down that open ocean  
We didn't care where we going, heading anywhere  
Feeling the wind in your hair  
Love was a breath of fresh air  
We had everything that we could ever imagine, oh

Every night I could see your face  
I would never feel lonely, yeah  
And in middle of the summer breeze  
You take my hand and hold me, yeah

Where are we now, the seas are storming?  
Can't make it out if I'm dead or I'm living  
And where do we go when the sky keeps on falling  
Rain is pouring, and we're stuck in the middle

Please, don't let me d-d-d-d-drown  
In these deeper waters  
I'm floating in the feeling of  
This should be forever love  
Please, don't let me d-d-d-d-drown  
In these deeper waters  
I'm floating in the feeling of  
This should be forever love

Forever love  
Whatever love could be  
Tell me that you believe in our forever love now  
Forever love  
Whatever love could be

It's really strange how I pictured us  
Time runs away, days turn into weeks  
We don't talk for years 'til we can't catch up  
No-one's there no more to greet me in the morning  
My world is colorless without you, ain't no rivers flowing  
You know?  
I wish I could sail on back in time, find the place I met you  
Take you back and make you mine, oh my  
Act just like if nothing ever changed, but I guess that ain't  
Gon happen ever, since we parted ways

Where are we now, the seas are storming?  
Can't make it out if I'm dead or I'm living  
And where do we go when the sky keeps on falling  
Rain is pouring, and we're stuck in the middle

Please, don't let me d-d-d-d-drown  
In these deeper waters  
I'm floating in the feeling of  
This should be forever love  
Please, don't let me d-d-d-d-drown  
In these deeper waters  
I'm floating in the feeling of  
This should be forever love

When did we become so far out

Waiting for a place we can land  
I keep floating around with my head in and out  
I just need you to give me a chance

D-d-d-d-drown  
In these deeper waters  
I'm floating in the feeling of  
This should be forever love  
D-d-d-d-drown  
In these deeper waters  
I'm floating in the feeling of  
This should be forever love

Forever love  
Whatever love could be  
Tell me that you believe in our forever love now  
Forever love  
Whatever love could be
