Open your heart, lady with no expression
Why do you keep avoiding my gaze? Look at me
You know, if you're not here, it's a day in which I look for you
Girl let me love you
I can't stand it anymore today

Don't hesitate, come a little closer
No matter where I look, you're an angel from the sky
Your mad sexy cool style that caught my eye
Aye, hold on, as you hug your shoulders
You're smiling, aye

I'm feeling your style
You're one of a kind girl
And you just the way you are
A picture perfect
And lady, you've got what I want
There's nothing more than I would need
So take my hands, come with me, baby

Let go of your fears
Just hold my hands once
I don't need a girl other than you next to me
Please know how honest I am being, baby
Even if I hold onto you, I can't capture you
Tell me today that you've been feeling the same way too

Open your heart, lady with no expression
Why do you keep avoiding my gaze? Look at me
You know, if you're not here, it's a day in which I look for you
Girl let me love you

Somebody like you that has everything I want
I've got everything for you too
I don't need anything except for you in front of me
I'm here, girl
All I need in this world is you
For real, girl
I wish you felt the same as me
