

I Know

Bun B

In lifetime
You've gotta live for something (I know)
I know we've been here before
I know, oh

Sometimes I stare at the stars and watch the hours pass
Meditate as the sand falls in the hourglass
I take a moment for the moments I reflect on
Some I got right and some I got dead wrong
But I'm headstrong, so I don't even worry
'Cause it'll all pass, quick, fast, in a hurry
If it's a hereditary, I'ma break the cycle then
I'm hoping for a breakthrough in praying I can win
I'm not giving up, I only got one life
So I'ma live it up on the road to get the bigger bucks
But if I never get the bread that I made me then
At least I fought the good fight, it ain't no shame in that
You never know how far that you can go until you try
You never know how life is gonna go until you die
I send a thanks for all my blessings up into the sky
'Cause I serve a true and living God, the devil is alive

In lifetime
You've gotta live for something (I know)
I know we've been here before
I know, oh

When I'm long gone
Will they listen to the words in this song?
When I'm long gone
Will they listen to the words in this song?

What's the name of the album?
Trillstatik, Bun B
