

Slow It Down

Bun B

Rolling round' my window, bring me down
Smokin' to ease the stress
Sunshine on my chrome while the woofer sounds
Sometime the rain's the best when we blow it down
Blow it down, blow it down
When you slow it down, slow it down, slow it down
The rain's the best when we

Late night when it's quiet and the grind slow (slow)
When I wanna just relax and let my mind go (go)
I grab some kind dro' and roll it up and light (roll it up and light)
Then sit back and try not to get too excited (too excited)
I don't talk loud (loud), I don't move fast (fast)
Kill your ass out before you let the mood pass
Catch a vibe while you can when you get one (one)
Then sit back and hit the square 'til the shit done (done)
Shotgun, gas mask shit or just a beat
You can roll one for you but this one's just for me
I cut some corners by myself 'cause I don't need a crowd (crowd)
All I need is a lighter and a pack of loud (loud)
Yeah I smoke with you but right now I'ma smoke with me (me)
And when I'm done baby you could take a toke with me (me)
But for now it's just me takin' it easy p's
Smokin' on trees and partaking in some CBDs

Rolling round' my window, bring me down
Smokin' to ease the stress
Sunshine on my chrome while the woofer sounds
Sometime the rain's the best when we blow it down
Blow it down, blow it down
When you slow it down, slow it down, slow it down
The rain's the best when we

I'm ridin' solo baby one deep in the whip (whip)
With a big fat swisher sweet up on my lip (lip)
I'm on them backstreets, for one time never go (go)
So I'm about to get bent you already know (know)
I light it up and take a deep pull to my chest (chest)
And God damn this that good, nothin' but the best (best)
I'm tryna hold it in but can't 'cause it's too strong (strong)
I blow it out but by then a nigga too gone (gone)
Man I been smokin' since Cheech Marin met Tommy Chong
But hit me with that real potent kill and I be gone (gone)
The shit that I be on, it put the best to bed (bed)
The one hitter you gon' need somewhere to rest your head (head)
Sometimes I just get my pen and fill it up with wax
Take a couple puffs to the head and just relax
I got the loudest of the packs but I'm quiet though
Laid back, livin' in the moment, you know how it go

Rolling round' my window, bring me down
Smokin' to ease the stress
Sunshine on my chrome while the woofer sounds
Sometime the rain's the best when we blow it down
Blow it down, blow it down
When you slow it down, slow it down, slow it down
The rain's the best when we
