

# Here Comes The Dawn

Buray

Here comes the dawn  
I'm running  
Running to her  
Where is my lover  
I'm lost  
Losing desire

Here comes the goddess of my dreams  
Just like a shadow  
Of a powerful flame  
Can see how naked the night will be  
Feeding desires  
Beautiful dreams

Lights out when you show up  
The fire is stronger than ever  
Hold my hands like the first time  
I beg you to play with fire

Lights out when you show up  
The fire is stronger than ever  
Hold my hands like the first time  
I beg you to play with fire

All this time I've been awake  
Yet It felt like a dream  
Got a taste of your skin  
Got a taste of your skin  
Got a taste of your skin

Under the stars  
The summer heat  
Let me lay you down  
And I will lead  
Middle of the night  
Just what we need  
My lips on your lips  
And we begin

Here comes the goddess of my dreams  
Just like a shadow  
Of a powerful flame  
Can see how naked the night will be  
Feeding desires  
Beautiful dreams

Lights out when you show up  
The fire is stronger than ever  
Hold my hands like the first time  
I beg you to play with fire

Lights out when you show up  
The fire is stronger than ever  
Hold my hands like the first time  
I beg you to play with fire
