I'm sill so glad you're here Let's make the most of the time we share I'm still here Dancing so long Singing my song Wearing so well A smile that kills The glamour that holds My soul at will Check me out Mirror oh mirror on the wall Who's the fairest see them fall Who's the fairest of them all The sick relation Of what we've come to know The congregation Of our fine feathered souls (We're gonna fly) We have the comfort We have the comfort of We're here today and gone tomorrow It's time to play so let it all go So hold on tight We're in for the ride of your life We're gonna play it over and over again We find ourselves here So far from home Our eyes have tall tails Dark lines have shown us So turn your eyes dear Don't watch my heart fade Just dim the house lights And like we all have said It was worth all the while The sick relation Of what we've come to know The congregation Of our fine feathered souls (We're gonna fly) We have the comfort We have the comfort of We're here today and gone tomorrow It's time to play so let it all go So hold on tight We're in for the ride of your life We're gonna play it over and over again Your place is here in our hearts
