

Maze of Absurdity

Burden Of Grief

Lost in the blackness, eternity
Farlorn in space, our tragedy
Wasted time encased me
Lost in the blackness, eternity

The failing of humanity
We're roaming through the maze of our absurdity
The failing of humanity
We're roaming through the maze of our absurdity

A current clockwork, not standing still
Marching like puppets, day after day
Destination undefined
A current clockwork, not stading still
Losing the sand through our hands

The failing of humanity
We're roaming through the maze of our absurdity
The failing of humanity
We're roaming through the maze of our absurdity

The rest of your life, just step inside
One day, one hour, enjoy your time
Until death is calling you
An endless circle, from day to day
Wasted time encased me
