

Operation Eagle Eye

Burden Of Grief

Feel secure in this progressive world
Behave unsafe in everyday life
There's someone who's watching you

Use your eyes be careful
Watch your mouth and train
Use your eyes be careful - this ghost is real

Modern observation in this age of economic warfare
No one's save today
The eagle eye watches constantly
In this time, the pending accusation
Eagle eye it's a modern observation

Keep in mind off the buttons you press
Nothing remains to be arcane
Behind each window they're watching you

Use your eyes be careful
Watch your mouth and train
Use your eyes be careful - this ghost is real

The eagle eye is watching you in everything you wanna do
The e eagle eye is watching you in everything you do

Modern observation in this age of economic warfare
No one's save today
The eagle eye watches constantly
In this time, the pending accusation
Eagle eye it's a modern observation
