

Zero Gravity

Burden Of Grief

Fake illusions
Circus of life
Hypocrite
Lying every day

Foolishness
Intolerance
In the name of Gad
Disunite till death

Utter chaos
In our streets
I betake
I betake myself to flight

Come with me to my insanity
Follow me through dusk and dark
In an empty space we're drifting
In a state of zero gravity
We're heading slowly far away
A journey to the dark

Dark perspectives
In this day and age
Frightened people
Escaping from that war

Incertitude
On all hands
Obsolete nations
Disunite till death

Come with me to my insanity
Follow me through dusk and dark
In an empty space we're drifting
In a state of zero gravity
We're heading slowly far away
A journey to the dark
