

# Breathing the Soil

## Burden Of Life

Verse 1:

Scattered memories on a dusted shelf  
Exhibited obviously only  
To make sure that your so-called experience of life  
Is Displayed for people's envy

This is all your life can offer  
For I know these feet never hurt like mine  
But it makes me release all the pain from within  
A shape where I'm free of fear and sin

Pre-chorus 1:

In search for snow fields and oases  
And all that's in between

Verse 2:

Perambulate all known terra firma  
From Ayer's Rock to Cheop's Lair  
Wash of the sand in Amazon River  
And desiccate in the Valley of Death

All the things I need to be  
Can not be grabbed by mortal hands  
They are locked so deep within my soul  
Never to be taken away from me

Chorus:

I follow my heart to take me home  
Just to leave again and continue to roam

Verse 3:

Time after time I come back to the place  
Where once I left and I will leave again  
For I will not rest till I know  
What made me choose this path

Nothing compares to learn the beauty of it all by yourself

Chorus:

I follow my heart to take me home  
Just to leave again and continue to roam

Leads: Sheep Berger / Kötterl / sheep Berger / Kötterl

Pre-chorus 2:

Still searching snow fields and oases  
And all that's in between

Chorus:

I follow my heart to take me home  
Just to leave again and continue to roam
