

Pisces

Burden Of Life

Verse 1:

From when our lives were intertwined
To the moment we were forced to give in
Through the days this common bond declined
We never knew if we ever could win
Now I look at you and I see a friend
See an ally till the end of the road
No bad blood resentment or loose end
No enigmas to decode

Prechorus:

Now mother's words prove to be true
There's more than one way to love someone like you

Chorus:

As long as we can swim beneath the sky
Resounding oceans all around us
The fervor deep within won't let us die
Pisces will strive against the tide

Verse 2:

Now will our lives stay intertwined?
Will our worlds never be apart?
Even if they are from time to time
There'll be a haven within my heart

Prechorus:

Now mother's words prove to be true,
There's more than one way to love someone like you

Chorus:

As long as we can swim beneath the sky
Resounding oceans all around us
The fervor deep within won't let us die
Pisces will strive against the tide

Bridge:

We are weathering the tempest
As the storms keep raging on and on
Lead: Kötterl

Time healed all these wounds
Even reinforced the bond once declined
May it take a million full moons
For our lives not to be intertwined

Chorus:

As long as we can swim beneath the sky
Resounding oceans all around us
The fervor deep within won't let us die
The passion we possess won't let us die
As long as we can swim beneath the sky
Pisces will strive against the tide
