One world one reason
I am a flame feel it in my heart
One world one vision
Never changes feel it in my hate
One world one reason
I am flame feel it in my heart
One world one vision
Never change, never change!

It's a brand new
One world one reason
Never change aim for one vision
Found myself with the great companion
I am a flame, feel it in my heart
Compose the mission

Yes, the season is changing
And voices keep calling
Preventing us from collapsing
The sun still shines
Now we have more chance to do what we are into
Integral

I am adamantine, I am adamantine
You can't bar my way
Brave
It's adamantine, yeah adamantine
You can't break my will
Whatever you say

Don't waste our lives
There's nothing to fear
Collectively integral
Let's start a fire a light
And take it with pride

I am adamantine, I am adamantine
You can't bar my way
Brave
It's adamantine, yeah adamantine
You can't break my will
I am adamantine
You can't break my will

Whatever you say!
