

Under The Scar

Burgerkill

Sometimes there's no words
To explain what you've done
Acting like a god and smell like an
Animal
You keep serving me with your trick
And hiding behind the highest brick
... Can you feel us? Can you see us?
Now i know you're just afraid that i'm
Right
Now i feel you're just afraid that i'm
Real
All the life phase in this world is a
Scenario
Too many promises disappear without
Trace
Face... Face the blur line, face the lost line
Insane. I can't stand on all this shit
See my fist. Face to face!
Look at this scars
It's enough to explain for what you've
Done
All my hatred will slay everything
That pushed me away
Drop the system, drop that power
Erase... All that bullshit away
You thrust the knife into my side, why?
We were born to bleed
We are here to dominate
We're stronger than ever before
Now iknow you're just afraid that i'm
Right
Now i feel you're just afraid that i'm
Real
You offer. To protect
See my scars.see my scars
You pretend.to protect
See this f**king scarc... The f**king
Scars!
I'm coming!
We're never alone... We never forget!
