

# Bittersweet

Burhan G

The stars in the sky are changing  
And the earth beneath my feet moves  
The situations changin me  
And its all because of you  
You can't reverse a lifetime  
You can't take anything back no  
You done what you done  
You said it now  
You thrown me off of my track  
You lovin it hurts me  
But at the same time I need it  
The feelin scares me  
But no drug could ever be there  
Because its so  
Bittersweet  
Your love is all consume and so confusing  
Bittersweet  
Got me freakin out when your not around  
Bittersweet  
Our loves so tough I found enough of it  
Bittersweet  
Girl it used to be like candy now its bittersweet  
I can try to forgive but I won't forget  
That may take a little time  
I feel so hard don't know how to get up again  
Can't take this pain of mine  
Being apart drives me insane  
I can't help it (help it)  
Can't go thru this over again  
Your lovin hurts me  
But at the same time I need it  
The feelin scares me  
But no drug could ever be there  
Because its so  
Bittersweet  
Your love is all consume and so confusing  
Bittersweet  
Got me freakin out when your not around  
Bittersweet  
Our loves so tough I found enough of it  
Bittersweet
