Sweat

I'll be your fantasy, and your dream come true
You can go pretend that I'm in love with you
Go tell your friends that you got everything
And you're so excited bout what this night could bring
All night long gonna make you sweat, check baby check baby yes
yes sweat
Sing a song that will make you wet, check baby check baby yes y
es weat
All night long gonna make you sweat, check baby check baby yes
yes sweat
Remove the s that will make you wet, check baby check baby yes
yes weat
How you like me now, you can't hardly wait
Baby close you're eyes and take a real deep breath
Let me take control of your body and mind
I wanna take you there, cause girl you're so fine
In your eyes I see how you yearn to be mine
Let's take this time, if just for one night
I'm 'a make you feel home girl
See what we came to do tonight
Is make the ladies dance and all the fellas bop their heads
While the music plays... you like that yeah peace we out
