

## Lions Below

Buried In Verona

Stand up  
Be a man  
Take it on the chin like I know you can  
Those walls must be closing  
Choking all the air  
Empty your lungs with your lies  
You scared?  
All alone in the dark in the end  
We're all connected, black silk from your web  
Draining the life out of dreams I have dreamed  
I hope that you hear this, I'll never forget  
Glad you're gone  
You'll never hear me say  
That I'll need you here to watch me  
Watch me walk away  
Go ahead admit that you're wrong  
You'll feel so much better  
Your conscious so torn  
How do you sleep? Do you lie awake?  
Do you dream of hell or just your mistakes?  
Open your eyes and peek through holes  
Jump the fence and run with the wolves  
How would it feel on the other side?  
How would it feel with nowhere to hide?  
Glad you're gone  
You'll never hear me say  
That I'll need you here to watch me  
Watch me walk away  
Now I'm alive and I'll cut these ties tonight  
And I'm dying to survive  
And you've taken all that's mine  
Now I'm alive  
As the candle loses light  
The hope is burning bright  
All the bridges set on fire  
Now I'm alive  
I see straight through your eyes  
Where you hide behind the lies
