

## The Moon Is High

Burl Ives

Well the moon is high and so am I  
The stars are out and so will I be pretty soon  
And I can tell you're mad at me  
You stand there tellin' me goodbye  
And I say no you can't go  
I love you so much I can't let you get away  
But come the dawn and it will dawn on me you're gone

Love don't leave me  
Don't leave me laying here  
This ground is cold and chilly really  
Don't leave your charming Billy  
Way out here you hear  
The moon is high and so am I  
The stars are out and so will I be pretty soon  
But come the dawn and it will dawn on me you're gone

Well the moon is high and so am I  
The stars are out and so will I be pretty soon  
And I can tell you're mad at me  
You stand there tellin' me goodbye  
And I say no you can't go  
I love you so much I can't let you get away  
But come the dawn and it will dawn on me you're gone

Love don't leave me  
Don't leave me laying here  
This ground is cold and chilly really  
Don't leave your charming Billy  
Way out here you hear  
The moon is high and so am I  
The stars are out and so will I be pretty soon  
But come the dawn and it will dawn on me you're gone

Love don't leave me
