

Until The End

Burn Halo

I know that we've been falling
In and out of love and it's a shame
I know that we just might be
Better off this way

We should be a little terrified
Been through this time and time again
We don't wanna be the one who let this
Slip right through our hands
Let this slip right through our hands

I will flight! Until the end for you
I will fight! I won't give up on you
Well, I don't know where we're going
If you've heard a word I've said
You know that I will fight for this
Until the end

I've tried to compromise and
You won't listen to a word that I have said
This twisted love has got you
Fucked up in the head

I should be a little terrified
Getting used to the pleasure in our pain
Now I gotta put an end to this
Before we go insane
Now I think I've gone insane

I will flight! Until the end for you
I will fight! I won't give up on you
Well, I don't know where we're going
If you've heard a word I've said
You know that I will fight for this
Until the end

We've gotta fight
'Cause this is all we know
We've gotta fight
The darkness in our souls
We've gotta fight
Well, I just can't let you go

I will flight! Until the end for you
I will fight! I won't give up on you
Well, I don't know where we're going
If you've heard a word I've said
You know that I will fight for this
Until the end
