

# Calm Down

**Burna Boy**

Explore my open sea  
Let my emotions see  
If I should stumble off my feet  
I hope that no one sees  
I know, no one can save us (no)  
So I just put all my pain and my problems in this Styrofoam cup  
And drink it all away  
So here we go  
Feeling so good (so good)  
(Listen) Got me moving in slow motion  
(Listen) I'm trying to walk on top of the ocean  
I numb the pain  
Numb the pain  
Numb the pain  
As the sun shine on me (on me)

Oh Lord of his mercy  
J five

My baby say she wonder why I'm not around more  
And is she getting what she came for  
Wonder why I'm laughing all out for  
I'm high baby  
That's the sound when I'm inside you  
And now I got you singing high notes  
My doctor got something for you  
To get on my level  
And make you calm down

Calm down  
You have fi calm down  
My baby calm down  
Calm down  
Cause if I start now, I no go calm down  
Mi nah calm down

Solid like my granny  
Solid like my daddy  
Life no easy for me  
So don't worry about what I'm drinking  
I'm popping molly's in public  
Bet they wish they'd never given me money  
Cause I won't believe anything you tell me  
I don't listen to nobody, don't tell me

Calm down  
Me nah go calm down  
It ain't no calm down  
Them wan me calm down  
Calm down  
Them wan me calm down  
Me nah go calm down  
Me nah calm down  
Calm down

Anytime you step inna di compound  
Get dem look pon me and them get dumbfounded

All my bitches with the shifts you know they all down  
I gotta slow down, let them go round  
Me am quick to let them know how it goes down  
Even though you know its only right that I put some [?] and sprite in a cup  
and say ayayayayayni

Calm down  
Calm down  
Calm down

I know  
They don't wan't no smoke  
They don't wan't no smoke  
They don't wan't no smoke  
I said they don't  
I said they don't  
No smoke  
I said they don't  
Don't want no smoke  
They don't  
Don't wan't no smoke

My baby say she wonder why I'm not around more  
And is she getting what she came for  
Wonder why I'm laughing all out for  
I'm high baby  
That's the sound when I'm inside you  
And now I got you singing high notes  
My doctor got something for you  
To get on my level  
And make you calm down

Calm down  
You have fi calm down  
My baby calm down  
Calm down  
Cause if I start now, I no go calm down  
Mi nah calm down
