

# Destiny

Burna Boy

Feel good  
I ain't gonna lie to you  
I don't know about you  
In a prison or a hospital  
Yeah, when I bicycle  
My ting done car sick  
I remember when I used to hustle in the flats  
And the neighbours then had no love for me  
Switch it up, now everything blessed  
It is stayed with the gal? I say yeah, yeah  
When them rise up against me  
Me looking at them eyes and sing

Destiny, can't touch my destiny  
Them are try everything  
Them are try take me life  
But I won't let them get the best of me  
Destiny, can't touch my destiny  
They can take everything I have  
They can take my life  
They can't touch my destiny

You done know, man, I gots it tough  
Man, I slice up your head like a barber does  
No, you no really really wan' start with us  
'Cause we dangerous and hazardous  
Skrr, beep beep when I'm parking up  
California weed, man are sparking up  
Man no send me of the means, them charging up  
'Cause we never smile when them try laugh with us  
As a little youth it was hard enough  
Older guys them were starving us  
So me hustle till me start live marvellous  
Roll deep like I'm driving a party bus  
We was just a bunch of fuckin' foreigners  
No one to trust, I know that they don't want me here  
Came a long way from standing in the corridors  
Dunking feds in the coroners  
Hey!

Destiny, can't touch my destiny  
Them are try everything  
Them are try take me life  
But I won't let them get the best of me  
Destiny, can't touch my destiny  
They can take everything I have  
They can take my life  
They can't touch my destiny  
Hey!

Destiny, can't touch my destiny  
Them are try everything  
Them are try take me life  
But I won't let them get the best of me  
Destiny, can't touch my destiny  
They can take everything I have  
They can take my life

They can't touch my destiny  
Hey!
