

## Intro

## Burna Boy

So what do you think about Burna Boy?  
Fantastic artist but I think he is on a path of destruction  
Why?  
Well we've all seen it, we've all seen what Burna Boy can do and can't do  
Burna Boy can make good music, but Burna Boy can't be a responsible artist  
Burna Boy can not keep everything within, as an artist  
Controversy has clouded his whole career  
It just shows how, I mean  
I mean from the progression from how he started  
Fantastic music, you know smothered by controversy  
Upon controversy, upon controversy, up 'til now  
Well he has the hits, and he has that bad boy image  
Which goes with the controversy as well  
See talent is never enough  
Burna Boy is one of the most talented Nigerian artist right now, right?  
He makes good music, he's got good lyrics, but talent is never enough  
If talent was enough, you know  
Majek Fashek will still be number one artist maybe in Africa or the world  
We've seen artist come and go  
Just because they couldn't keep their career together  
You know, only this year Burna Boy has been in say four, four-five controversies  
From threatening to kill bloggers  
To you know posting pictures of guns on his Instagram  
To calling out the MAMAs because he wasn't self-nominated, he was nominated  
You know he didn't have any solo nominations  
To fighting with reggae artists in Southern Africa  
You know and all that, threatening to kill people, I mean  
If you, you can't, you can't have all that and have a peaceful career  
It doesn't work that way  
Controversy will kill you
