

## Love, Damini

**Burna Boy**

Everything be off the top these days  
I ain't write shit since my early days  
And inside these veins, my blood, my DNA  
Burna Boy, but I'm Johnny Blaze  
Ayy, yeah, there's things that I hardly say  
"How you been, mama? How's your day?"  
I should talk to my granddaddy more before it's too late  
Listen more to things that Roni says  
Should have been by Buki's side when her mother died  
Should have talked to Sound Sultan more before he fuckin' died  
I should show people more love while they still alive  
I should always know the way my people feel inside  
A lot of times, I feel my life's in a blender  
So, I tell it black-and-white like a panda  
Yes, I agree I'ma start makin' changes, yeah  
Tryna be a better man, I been tryin'  
I got it all, but I still got my anger  
Been workin' hard tryna get rid of my anger

Love, Damini
