If you like ego
Take two steps in the zeus
If you like ego
Now show me your red bottom as you please

No doubt, me get confidence
So much money in the bank
Dem a think say dem a people them drug trafficking
Una know say I dey talk many things for my song
That the people can't forget
Lyrically murder *** murder the beat and leave the producer mark for it
And the values are winning..no forget
That's the reason am overconfident
Flows ah burn out
Ma clip fi run out mi reload and put more cartridges
Or I think say you're back to the bone
But I know say me back to the cartilage
And if una no understand me

By now push the re-wind button and start again
More verses than the bible passages
