

Poor House

Burning Brides

I wanna live in a poor house baby
Live in a poor house in the sky
I wanna live in a poor house baby
Live in a poor house when I die
And I will take my place behind the other criminals
in line
I wanna live in a poor house baby
Live in a poor house in the sky
I wanna live in a poor house baby
Live in a poor house when I die
And I've been to target practice
The four winds blow over my shoulder
A dark sky will carry me over
Everything below will turn to fire
All of mother nature will burn
I wanna live in a burned out basement
Live in a basement in the sky
I wanna live in a burned out basement
Live in a basement when I die
And I've been to target practice
The four winds blow over my shoulder
A dark sky will carry me over
Everything below will turn to fire
All of mother nature will burn
