

## Rainy Days

## Burning Brides

You had the time of your life my friend  
On a go-kart  
It makes you happy to know you're a star  
of the grapevine  
We're gonna put you right back where you were coming from  
We're gonna get you every tuesday

Rainy days are following you down the window pane  
Rainy days will wash away the color from your brain  
Rainy days will shoot a cloud of grey into your vein  
Rainy days will make you feel like everything's the same, hey

When you were younger your mama sang you a lullaby  
And now you're older you want a piece of the big sky  
Gonna put you right back where you came from  
We're gonna get you every thursday

Rainy days are following you down the window pane  
Rainy days will wash away the color from your brain  
Rainy days will shoot a cloud of grey into your vein  
Rainy days will make you feel like everything's the same

Save yourself some time
