

# All the Madness

## Burning Point

Into the new horizon  
I gaze with my eyes open wide

My heart is lonely  
I need a new way of life

Am I the last survivor  
From these ruins, someone called "life"

What's beyond, it's my future  
I rise from the ashes , and tomorrow I want to be gone

I want to stand proud and strong,  
But the memory still remains

Just a war, nothing more, all the madness  
It's the end of the human race  
Too deep in sorrow and sadness  
(I want to get out of this place)

I see the sun is rising  
Uncovers the remnants of war

My heart is bleeding  
I rise from the ashes, and tomorrow I want to be gone

I want to stand proud and strong,  
But the memory still remains

Just a war, nothing more, all the madness  
It's the end of the human race  
Too deep in sorrow and sadness  
(I want to get out of this place)

Just a War, nothing more, all the madness  
Your voice is lost in the endless game  
Too deep in sorrow and sadness  
(I want to get out of this place )

Just a war, nothing more, all the madness  
It's the end of the human race  
Too deep in sorrow and sadness  
(I want to get out of this place)

Just a War, nothing more, all the madness  
Your voice is lost in the endless game  
Too deep in sorrow and sadness  
(I want to get out of this place )
