

Hell Awaits

Burning Point

You`re so condescending there`s no way i`ll be bending down,
down with your rules
Two worlds colliding i`ll be rewriting your future
and the victory is mine

Say what you say it doesn`t mean anything
Play what you play, but in the end i will take it all...

Hell awaits when you`re near me
Hell awaits if you try to deceive me believe me i`m breaking yo
u down

Sucking out all the lifeblood in the end there`s no rivals
standing alone on the field
Actions speak louder than words ever will,
but you`re not wise enough to understand the truth

Say what you say it doesn`t mean anything
Play what you play, but in the end i will take it all...

Hell awaits when you`re near me
Hell awaits just try to deceive me

Hell awaits when you`re near me
Hell awaits if you try to deceive me believe me i`m breaking yo
u down
