

Come in Peace

Burning Spear

We don't want no more war, war
We don't want no more war, war
We don't want no more war, come in peace
We don't want no more war, come with love
We don't want no more war, unity
We don't want no more war, too much youth are dying
We don't want no more war, gun a fire
We don't want no more war, come and explore
We don't want no more war, war
We don't want no more war, can't take it no more

Weapons makers
It's a money making thing, political thing
Weapons makers
It's a money making thing, political thing
War

This war day, no one seems to be the winner
This war day, no one seems to be the winner
Both sides, end up in a body box
Both sides, end up in a body box
War
Funeral, Bawling
Funeral, Bawling
Crying, crying, crying
Crying, crying, crying

Here comes the gun salute, then they deliver the flag
Here comes the gun salute, then they deliver the flag
War
They always recruit young men to fight war
They always recruit young men to fight war
When they stay so far
When they stay so far
Weapons makers
Is a moneymaking thing, political thing
Weapons makers
Is a moneymaking thing, political thing
War, war
We don't want no more war, war
We don't want no more war, war
