

Black Magic

Burning Witches

I loved you
Fell for you
As in all stories ever told
I need you
You need me
Till all the days are gone

Now I'm afraid
Of what your magic does
This love will fade away

But you are like black magic
Poisoned my heart
Black magic
You've taken your part

Possession
Obsession
A demon and an angel
The nights
The cries
I hope one day you'll set me free

Yeah, I'm afraid
Of what your magic does
This love will fade away

You are like black magic
Poisoned my heart
Black magic
You blackened my heart
Heart

This flame can't be tamed
Slowly but surely leaves its mark
Yeah, I learned the hard way
Nothing will be the same

Now, I'm afraid
Of what your magic does
This love will fade away

You are like black magic
Poisoned my heart
Black magic, oh-oh
You've taken your part
Don't you see you're black magic
Forever in my heart
Black magic
You put a spell on my heart
