

## Doomed To Die

### Burning Witches

Doomed to die  
You dare to put your hand in fire  
Doomed to die  
You dare to put your life on the line

Caught between heaven and hell's tug of war  
It's stuck on eleven, going well so far

Doomed to die  
Blindly take a step in faith  
Doomed to die  
Now choose before it is too late

So, what does your fortune tell  
Wish upon the wishing well  
And if you wonder why, the facts don't lie  
We're doomed to die  
You are doomed to die

Doomed to die  
You risk descending into madness  
Doomed to die  
You will end up in sadness

Caught between heaven and hell's tug of war  
It's stuck on eleven, going well so far

So, what does your fortune tell  
Wish upon the wishing well  
And if you wonder why, the facts don't lie  
We're doomed to die  
You are doomed to die

Everything will return to dust  
In what did you put your trust  
We are the voices of the well  
See you soon, in hell

So, what does your fortune tell  
Wish upon the wishing well  
And if you wonder why, the facts don't lie  
We're doomed to die  
You are doomed to die

Doomed to die  
Doomed to die  
We're doomed to die!
