

High Priestess Of The Night

Burning Witches

Have you seen her silhouette up in the sky?
Soaring fast, soaring high
Mother of demons and heathens alike
Bringing mayhem to mankind

Going up against the stream
And high-fiving Lady Liberty
Rebellion is in your veins
Never change

Forever free
Holding the keys to salvation
(Salvation)
Forever young
Proud and strong, free falling
Forever free
Holding the keys to creation
(Creation)
She's the devil's daughter in disguise
High priestess of the night

Born from evil, the devil's in your veins
Let sweet freedom reign
Yeah, Lady Lilith, she's got everything
Never bowed down to anything

Going up against the stream
And high-fiving Lady Liberty
Rebellion is in your veins
Never change

Forever free
Holding the keys to salvation
(Salvation)
Forever young
Proud and strong, free falling
Forever free
Holding the keys to creation
(Creation)
She's the devil's daughter in disguise
High priestess of the night

Forever free
Holding the keys to salvation
(Salvation)
Forever young
Proud and strong, free falling
Forever free
Holding the keys to creation
(Creation)
She's the devil's daughter in disguise
High priestess of the night

Whoa, oh-oh
High priestess of the night
